Mark Lane- conversation of 5/31/78 with Ted Gandolfo

Lane was aboutto leave for Paris where he said he was to debate Wesley Liebeler on French TV. Lane said he was to get a tape of it.

He gives an account of his representation of Jerry Ray before the House assassins committee. It is probably fairly accurate, fairly angled, but is quite effective.

Especially considering that he chickened out and allowed Jerry to testify with Lane representing him when he testified.
